DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 4, 6 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Peltier (5,382,410).

Peltier shows an electrostatically charged aerosol system comprising a source of disinfectant agent 38 (which can be disinfection agents, fungicides, bactericides, viruscides and related formulations), an aerosol device 30 which as an open end serving as a nozzle for the device, an electrostatic charging circuit 50, and a device 64 upstream for fanning the fog.

The device shown by Peltier will perform the steps recited in the method claim during normal operational use of the device.

Allowable Subject Matter

3. Claims 3, 5 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims 1-10 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
